MSU faculty & Staff: 3

Visiting Scholars: 3

Community Members : 3

### Session Testimonials

- I loved the architecture and the butterfly exhibit most. Overall, every exhibit.
- I like to see things in different perspectives. Art in different ways made a deep impression.
- I appreciated the discussion my small group had. It was good to reflect on the world perspective of things going on right now.
- I learned that it is important for the community to come up with structures and ideas that stand across time.
- The pace was comfortable. It allowed for a chance to discuss and get other perspectives.
- I enjoyed the videos on the second floor. I liked the international themes
