## **Session Testimonials**

- In China it is possible for children to be a part of the naming process. At age 8 one of our group members chose her name with her parents.
- Ideas for improving on what Anne and Megan are doing: bringing in speakers to help with Model UN simulations and helping students to realize bias in sources.
- A personal story from a Japanese person that was not told by the media.
- My learning was enhanced by the friendly and open-minded atmosphere here.
- I learned a lot from the Model United Nations. I will try a similar method in my class.
