Session Testimonials

- Jackson's presentation was absolutely fantastic! The information about the pencil really impacted me, because my students lose pencils all the time without even caring.
- I plan to involve my students in the LATTICE – type naming activity, locating the countries of LATTICE members, and writing to Nyaka pen pals.
- The Indonesian people use the number in their children's name. That's interesting.
- I have seen and heard about the Egyptian 2011 revolution but it became fresh, and more detailed today with Nawal's presentation.
- I so enjoyed hearing the international perspective from **internationals!**
