~ Skype with Mario Benavides in Managua, Nicaragua  
Director of Aqua Clara, Nicaragua

## *What's Happening in Our Schools and Countries?*

~ Facilitated by Sue Seyfarth

Attendance: 45

- International Students: 16
- K-12 Educators: 15
- Faculty/staff: 5
- Community/Guests: 9

## Session Testimonials

- Dr. Rose was passionate about the topic and she got everyone engaged in it so fast. In some areas it takes 30 hours or more per week for some people to get water.
- I've wanted LATTICE to make electronic connections with another country during our sessions, and this was a great start.
- I was struck by Aqua Clara encouraging people to take more responsibility for their own welfare and by the idea that a great deal may be accomplished with a small amount of money and local supplies!
- So many international students have beautiful, almost poetic-sounding names. Story helps remembering names of new people.
- I will do the elementary water activity with my class and share it with other teachers.
