Session Testimonials

Build bridges not borders!

I will use the same activity with my high school students this week. It fits perfectly with the 12th grade Michigan Merit Curriculum.

I heard about the impact that LATTICE has on individuals, most significantly how international students feel isolated, and how we can come together as a global community and support each other

We considered how the characteristics of a local citizen and a global citizen are similar in so many ways. Think locally, act globally. Many of us were from different parts of the world but were able to connect.
